## SUMMARY

With 2 years of experience in Python, Django, and REST API development, I specialize in building scalable back-end systems. I have hands-on experience with front-end technologies like React.js for admin panels and aspire to grow into a Full Stack Developer. Skilled in API development, payment gateways, notification systems, and cron jobs, I am passionate about delivering high-quality and efficient back-end solutions while continuously enhancing my front-end expertise.

## TECHNICAL SKILLS

**Web Development And Mobile :** Django, Django Rest Framework, React.js, HTML, CSS

**Programming Languages:** Python, Javascript, C, C++

**Database:** MySQL, SQLite, PostgreSQL

**DevOps:** CI/CD, Docker(Basic), Kubernetes(Basic), Git, Linux, Firebase

**Tools:** Postman, GitHub, Visual Studio Code

**Computer Science Fundamentals:** Strong knowledge in object-oriented design, Problem Solving and Complexity analysis

## PROFESSIONAL EXPERIENCE

**LeoCoders Pvt Ltd, Nagpur, Maharashtra: Backend Developer/ Django Developer** Jan 2023 – Jan 2025

- Developed and managed the backend for 2 full-scale applications, Handled projects independently, from database design to deployment.
- Designed and created relational databases, ensuring efficient data storage and retrieval.
- Applied Django ORM queries for optimized data operations and performance.
- Developed the admin panel's frontend and backend, ensuring seamless functionality.
